Troubleshooting

A tool shows no list for a book
Some Series 1 books have no Spot it or Try it list. The page says so and shows what the book does have.

A sub has no Sub Day link
Ask the front office or a teacher next door. Teachers make one from their teacher page. Meanwhile use 10-minute prep.

The text is too small
Tap Aa at the bottom right.

A teacher code stopped working
The principal may have switched it off, or the license expired. The principal can check on the teacher-codes page.

Lost a principal code or need more seats
Email support@mntyedu.com.
